OS/OA policies in Iceland – news

Committee formed in 2019 by the Ministry of Education – proposal for a nation wide policy on Open Access to research

Report on OA policy – September 2019

2020-2021 - SILENCE

New Minister for Higher Education, Science and Innovation – Open Science Policy one of the ministries main agenda

OA Proposal to be reintroduced before year's end 2022

Publish and read agreements

Proposal was in large based on the paradigm shift from subscription-based agreements to publish and read agreements to publishers

Was to reduce cost

Only solves the double dipping problem – doesn't reduce cost

Totally dependent on publishers and negotiations

Policy on Open Data

A new committee by the Ministry of Higher Education, Science and Innovation

Committee to commence in January 2023

Report no later than May 2023

Part of larger Open Science policy

Progress of this will be dependent on the outcome of discussion in December about OA policy

IRIS (Icelandic Research Information System)

A joint research portal for all universities and research institutions in Iceland

System is Pure from Elsevier

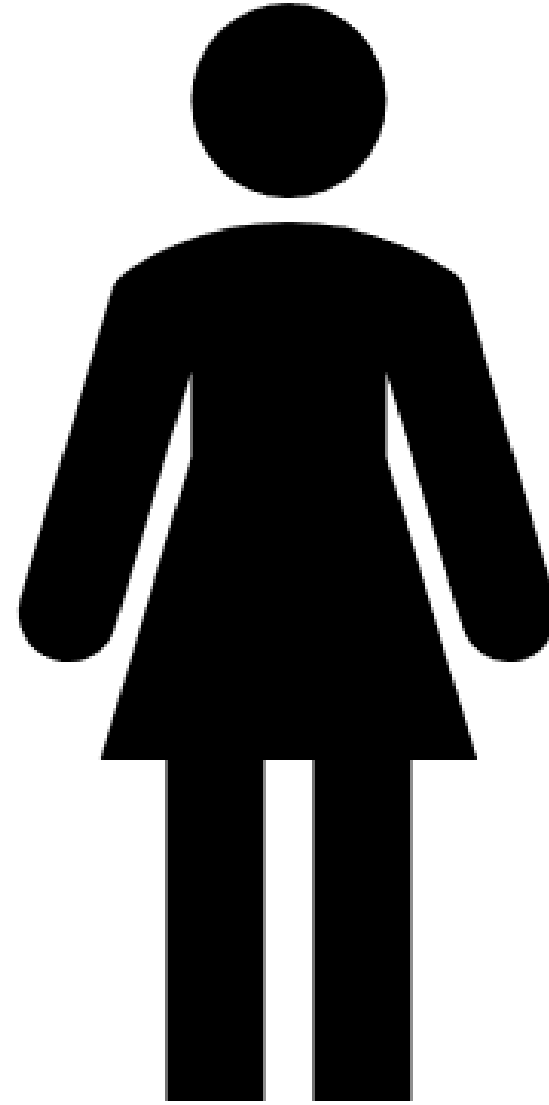

We'll be better equipped to map OA publishing in Iceland
