

Nordic Open Access Forum

Country update, Finland

24.11.2022

Jyrki Ilva, Riitta Koikkalainen, Janne Pölönen, Sami Syrjämäki, Timo Vilén

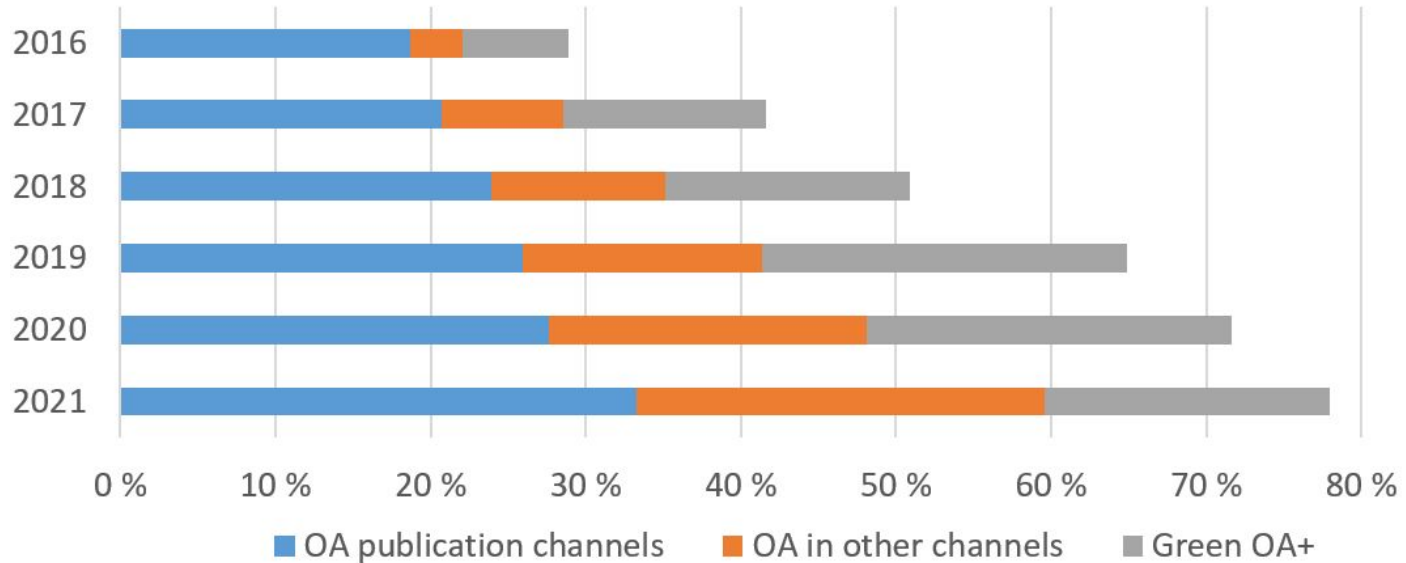

Monitoring on open science and research in Finland

- The 2022 [monitoring on open science and research](#) has been completed.
 - 14 Universities
 - 23 U of Applied Sciences
 - 10 Research Institutes
- Most organisations reached outstanding level 5 of openness.
- All results are available in [Research.fi](#) service

The share of OA publications continues to grow

The share of OA at Finnish universities in 2016-2020:
peer-reviewed articles and book chapters

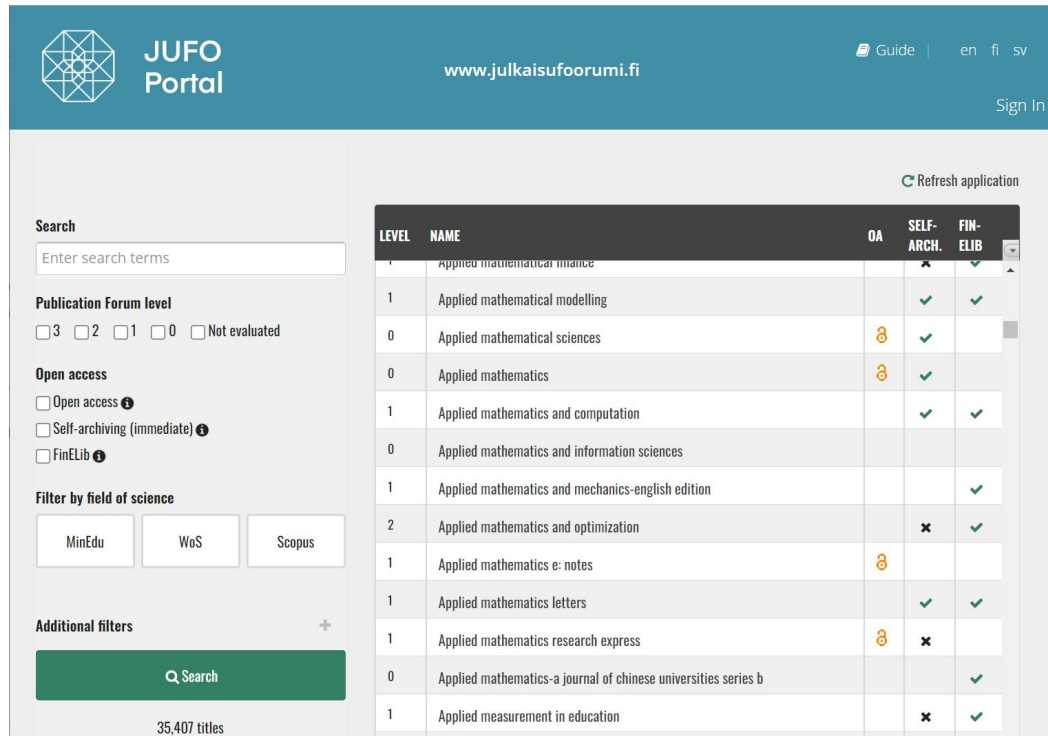

JISC-TSV Sherpa/Romeo project

- Jisc and TSV are [collaborating](#) to encourage journals and publishers in Finland to register and update their open access policies in Sherpa Romeo.
- ~330 potential journals published in Finland, of which 78 were already in Sherpa Romeo.
- As of 2022, registering OA policy to Sherpa Romeo is required of journals applying for government subsidies publishing from TSV.
- Jisc and TSV communicate criteria, translate instructions, and organise workshops for training and preparing applications.
- The collaboration runs until December 2022.

Improvements in Publication Forum (JUFO portal)

The renewed [JUFO portal](#) now provides more diverse information about:

- Immediate Gold/Green OA
- FinELib agreements
- Plan S compliance / integrated Journal Checker Tool

The screenshot shows the JUFO Portal interface. The header includes the JUFO Portal logo, the website URL www.julkaisufoorumi.fi, and navigation links for Guide, en, fi, sv, and a Sign In button. A 'Refresh application' link is also present.

The main content area is divided into a left sidebar with filters and a main table of results.

FinELib 2022 – an update

- In addition to TA's, increased focus on (and agreements with) fully OA publishers
- First consortium-level agreement with diamond OA publisher (OLH)
- New agreements to support key OA infrastructure via SCOSS (arXiv, DSpace)
- Updated licensing principles (requirements):
 - Immediate 100 % OA: OA journals, TAs or self-archiving AAMs with CC BY and 0-embargo
 - CC BY: must be provided
 - Copyright: author must retain
 - Agreement value can't diminish (e.g. flipping journals should remain eligible)
- Promoting OA cost monitoring
- A new data analyst

FinELib 2023?

- Projects on data and OA books
- A separate project on smaller, non-profit scholarly publishers:
 - data-driven approach, new agreements
- Preparing for the post-2024 landscape:
 - Where do we want to go as a consortium?
 - Tools, skills, mindsets etc.?
- Publishing in hybrid journals likely to plateau or go down (it already does), while publishing in fully OA journals likely to proliferate further
 - National and institutional policies & institutional OA funds
 - Implications in terms of OA? And in terms of costs?

Team Finland, at your service:

Jyrki Ilva, Information Systems Manager, National Library of Finland
jyrki.ilva@helsinki.fi

Riitta Koikkalainen, Information Specialist, National Library of Finland
riitta.koikkalainen@helsinki.fi

Janne Pölönen, Secretary General, Publication Forum / Federation of Finnish Learned Societies
janne.polonen@tsv.fi

Sami Syrjämäki, Head of Publications, Federation of Finnish Learned Societies
sami.syrjamaki@tsv.fi

Timo Vilén, Licencing Manager, FinELib / National Library of Finland
timo.vilen@helsinki.fi
