Osma Suominen

Tietomalliryhmä 5.9.2017

11 August meeting on works in Oslo

Representatives from:

- National Library of Norway (KB)
- BIBSYS
- Høgskolen i Oslo og Akershus (HiOA)
- Norges teknisk-naturvitenskapelige universitet (NTNU)

but not from Deichmanske (Oslo City Library) or University of Oslo

KB and BIBSYS are implementing an authority database for work entities, extracted from existing MARC records. RDF based system that exports MARC authority records, e.g. for use with Alma cataloging.

Trond Aalberg from NTNU is doing research on work extraction from multiple catalogs. He was given access to Fennica bibliographic records.
