## Need to amend statistics table

The Statistics table now lacks data that is required to determine the nature of actions from th statistical point of view, e.g. at the end of the year. Checking the data from elsewhere will produce skewed results, if, for example, a patron's status changes during the year. A few additions could make data significantly more reliable.

## Data nw

Column	Type	Size	Nulls	Auto	Default	Children	Parents	Comments
datetime	DATETIME	19			null			date and time of the transaction
branch	VARCHAR	10			null			foreign key, branch where the transaction occurred
value	DOUBLE	16,4			null			monetary value associated with the transaction
type	VARCHAR	16			null		<a href="#">account_offset_types</a>	transaction type (localuse, issue, return, renew, writeoff, payment)
other	LONGTEXT	2147483647			null			used by SIP
itemnumber	INT	10			null			foreign key from the items table, links transaction to a specific item
itemtype	VARCHAR	10			null		<a href="#">itemtypes</a>	foreign key from the itemtypes table, links transaction to a specific item type
location	VARCHAR	80			null			authorized value for the shelving location for this item (MARC21 952\$c)
<b>borrowernumber</b>	INT	10			null			kirjasto
ccode	VARCHAR	80			null			

## Suggestions for added data

- Patron data
  - categorycode, patron group
  - borrower\_attributes: STAT\_CAT, statistics group
  -  branchcode, home library. Not used or maintained by all libraries.
- Item data
  - homebranch,
  - itemcallnumber,
- Method of issuing
  - More exactly, data on the API used. Staff member, SIP, other API...
