

Webinar: Europeana - Engaging Collections for Finnish GLAMs

Time: 11 May 2021 at 9.30 am - 12.00 pm (EEST, UTC/GMT +3 hours)

Location: Zoom.

Cost: Free of charge

Europeana engages users with the digitised collections of Finnish and European GLAMs for research, for learning and just for fun. Europeana has easy tools for content providers and users to curate their own content. Also, Europeana has created a place for educators to find educational resources using digital culture, the Europeana Classroom.

In this webinar you will get acquainted with Europeana's engagement strategies and content curation tools and Europeana resources for education. Finnish institutions will also learn how they can provide digital content to Europeana via the National Library of Finland's Formula-service. There will be presentations in English and in Finnish.

The webinar is arranged in cooperation by The National Library of Finland and Europeana.

Programme

9.30 - 9.40 Test your Zoom
