

ERM

Test version:

- <https://staff-erm.sandboxes.bibliore.eu/cgi-bin/koha/erm/erm.pl>

Documentation:

- Koha ERM: [ERM Koha Wiki](#)
- Koha wiki: <https://tree.taiga.io/project/joubu-koha-erm/wiki/home>
- An overview of the current state of the development can be found on this kanban board: <https://tree.taiga.io/project/joubu-koha-erm/kanban>
- [Koha ERM module](#) (instructions)

Presentations:

- Monday Minutes: Electronic Resource Module: <https://bywatersolutions.com/education/monday-minutes-sneak-peek-erm>
- Koha ERM -Working with the Knowledgebase: https://www.youtube.com/watch?v=rlbBXIYp_G8&t=2s
- KohaCon2022 ERM-presentation: https://youtu.be/yIkVNmJE_6o?t=5966
- Koha ERM update: <https://youtu.be/i6YUU2KMg6A>

Open questions (Andrii to answer/get feedback from the Community):

- how is this production-ready and when community plans to release this?
- what about the financial part?
- how or can this be installed on our test server first, or maybe even in production(s), if it won't be released yet?
- How can it work when several institutions with separate e-resources are connected to one Koha (3AMK, Tritonia): activating titles, linking, connection to Finna etc.)

Resolutions

- Let's have this on test server. JYU will discuss with EBSCO about testing the DS.
