## Release 22.11 User Interface changes discussion and improvements

Let's gather proposals and inconveniences or improvements we can do with the current release "new interface changes" here on this page. Later we can form proposals for Worldwide Community and/or create our own CSS and JS for that if needed.

ri       IntranetUserCSS         /* "Koti-ikon" kok       isommaksi defar         14px */       #breadcrumbs af         /cgi-bin/koha/ma       .pi]before { font         .24px }       /* Fontikoko         isommaksi defar       13px */         vest       Joha         "Search catalog" is quite far on the right.       Joha         • Use shortcuts:       Alt-q will jump to Search catalog (Hae tietokannasta)         Alt-q will jump to Search catalog (Hae tietokannasta)       Ant-u will jump to Renewal (Uusinta)         Alt-w will jump to Renewal (Uusinta)       Alt-w will jump to Check-in (Palautus)         • In Search catalog: Typing sn: biblionumber in the search bar will bring you to that bib record.       Inke         Holds of a biblio record:       In genema to be fixer         If you change the browser font bigger, the dates of the holds get hidden into the date box, especially the date the hold was       in	Observations		
Inclusion       Inclusion       Inclusion         fort is even smaller in some places, for example when browsing system preferences and seeing the left panel sub-menus       Inde         accessibility issues are not perfect (someone used https://wave.webaim.org/ to check content accessibility)       Saija         • Green links are hard to discern.       Inte         Main Koha logo on all pages smaller so harder to point & return to root page       Inte         House "logo" on all pages smaller so harder to point & return to root page       Inte         House "logo" on all pages smaller so harder to point & return to root page       Inte         House "logo" on all pages smaller so harder to point & return to root page       Inte         • We abortcats:       Application (family bill)       Saija         • Search catalog' is quite far on the right.       Simmakis defau       Saija         • We abortcats:       Application (family bill)       Saija       Saija         • We abortcats:       Application (family bill)       Saija       Saija         • We abortcats:       Application (family bill)       Saija       Saija         • Me abortcats:       Application (family bill)       Saija       Saija         • Me abortcats:       Application (family bill)       Saija       Saija         • Me abortcats:       Application (family bill)	the font is smaller than before	Saija	
intermediate       intermediate       intermediate         accessibility issues are not prefect (someone used https://wave.webaim.org/ to check content accessibility)       Seija         Main Koha logo on all pages smaller so harder to point & return to root page       IntermetUserCSS intermetU	Quick fix, zoom with the browser settings.		
Creen links are hard to discern.      Main Koha logo on all pages smaller so harder to point & return to root page  House "logo" on all pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the pages smaller so harder to point & return to root page  Interest of the page smaller so harder to point & return to root page  Interest of the page smaller so harder to point & return to root page  Interest of the page smaller so harder to point & return to root page  Interest of the page smaller so harder to point & return to root page smaller so the holds get hidden into the date box, especially the date the hold was pieced.  Inter of the power fort bigger, the dates of the holds get hidden into the date box, especially the date the hold was pieced.  Inter of the power four forgeneous for forgen work			
Main Koha logo on all pages smaller so harder to point & return to root page       Intell       Intell       Intell         House "logo" on all pages smaller so harder to point & return to root page       Inkel       fixed by Slava 2// intranetUserCSA         Intell       Pixed by Slava 2// intranetUserCSA       Inkel       fixed by Slava 2// intranetUserCSA         ''Koti-Kotan'n Kota by Slava 2// intranetUserCSA       Inkel       fixed by Slava 2// intranetUserCSA         ''Search catalog' is guite far on the right.
